on Crop Biotechnology

MODERATOR:

The International Service for the Acquisition of Agribiotech Applications (ISAAA) will present the latest report on the global status of GM crops in 2019 during a webinar on November 30, 2020 at 4PM (GMT+3) via Zoom.

The webinar will cover the highlights of the ISAAA report including the following:

- global area of biotech crops from 1996 to 2019;
- global adoption rates of principal crops;
- biotech adopting countries; and
- trends in approvals of GM events.

Registration to the webinar is open to all and free of charge. Sign up now at bit.ly/ISAAAwebinar.
